

Vice Link Charm Chain – Technical Pack (Affordable Edition)

Overview

This affordable edition technical pack provides the specifications, CAD requirements, stone placements, finishes, and branding/packaging guidelines for the Vice Link Charm Chain – Upgraded Model. Adjustments have been made to prioritize affordability while preserving the luxury appearance.

Cost-Saving Adjustments

- **Materials:** Use sterling silver with white gold plating for clasp (instead of solid white gold). Use sterling silver with black rhodium plating for chain and charms.
- **Stones:** Lab-created rubies, sapphires, and diamonds to keep costs low but retain visual quality. Standardize stone sizes (1 mm, 1.5 mm, 2.5 mm).
- **Finishes:** Matte/brushed finishes overall. High polish only on focal points: skull teeth, scythe blade edge, clasp face.
- **Manufacturing:** Use pre-made curb chains for links. Simplify engraving to a single 'M' logo on clasp.
- **Packaging:** Matte black rigid box with printed logo (instead of embossed foil). Replace velvet insert with high-density foam insert.

1. Components & CAD Requirements

Component	Details
Clasp	Sterling silver with white gold plating, engraved 'M logo'. CAD to show dimensions and engraving details.
Skull Charm	Lab black sapphire eyes (2 × 2.5 mm), 1.2 mm lab diamond 'TM' on forehead. CAD with stone placement.
Dice Charm	Sterling silver body with 1 mm lab ruby pip inlays. CAD with pip detailing.
Scythe Charm	Sterling silver with black rhodium plating, 1.5 mm lab ruby at joint. CAD with stone setting.
Chain Links	Pre-made sterling silver curb chain with black rhodium plating, brushed finish.

2. Dimensions & Tolerances

Component	Dimensions (mm)	Tolerance
Clasp	25 × 12 × 5	±0.2 mm
Skull Charm	20 × 12 × 10	±0.2 mm
Dice Charm	10 × 10 × 10	±0.2 mm
Scythe Charm	28 × 12 × 4	±0.2 mm
Chain Links	12 × 8 × 3	±0.5 mm

3. Stone Placement & Sizes

Charm	Stone	Size
-------	-------	------

Skull	Lab black sapphires (eyes)	2 × 2.5 mm
Skull	Lab diamond 'TM' on forehead	1.2 mm
Dice	Lab ruby pips (all faces)	1 mm
Scythe	Lab ruby at joint	1.5 mm

4. Branding & Packaging

- Engraving: 'M' logo engraved on clasp (front). Simplified engraving keeps costs down.
- Logo Files: Vector (SVG/AI) provided for engraving.
- Packaging: Matte black rigid box with printed logo. High-density foam insert. Outer sleeve optional depending on cost.
